

## Action Across Zone 17

As Rotarians, we belong to a global network defined by bold action and an unwavering commitment to humanity. We have promised the children of the world a future free from polio. Today, that promise is closer than ever—and every club, every leader, and every member plays a vital role in crossing the finish line.

## Why World Polio Day Matters Now More Than Ever

Polio eradication is within our grasp, but the final steps require our highest level of vigilance, advocacy, and fundraising. When we raise awareness on World Polio Day, we do way more than share statistics; we ignite hope, remind our communities of Rotary's impact, and fuel the momentum needed to finish the job.

## 3 Ways Clubs Can Take Action

### 1. Spark Conversations:

Dedicate a club meeting to End Polio Now campaign. Share the latest updates from the WHO and remind members of how close we are to a polio-free world.

You can find more info from here: <https://www.endpolio.org>

## 2. **Engage the Community:**

Use local media, social channels, or club newsletters to highlight Rotary's End Polio Now campaign. Let your local community know that they are part of a global movement saving millions of children.

## 3. **Contribute and Support:**

Encourage clubs and individual members to support the PolioPlus Fund. Every donation makes a direct, life-changing difference on the ground.
